

Top Hat Filters

Landon Kingsway's Top Hat filters also known as conical filters or Witches Hats are constructed from stainless steel, they protect the downstream control equipment in the system from dirt, debris and any other foreign bodies that may pass through.

Features

- Top hat gas filters
- Protection for gas meters.
- For fitting in between PN16 flanges.
- Suitable for natural gas, LPG, Biogas, Oil

Technical Specification

Material: Stainless Steel 303
Filtration Mesh size: 60
Filtration Micron Size: 250
Media: Natural gas, LPG, Biogas, Oil
Flow: In to Out, Out to In, or Bi-Directional

Part number	Description
THF50	50mm filter stainless steel 250 microns , length 80mm
THF80	80mm filter stainless steel 250 microns , length125mm
THF100	100mm filter stainless steel 250 microns , length 140mm
THF200	200mm filter stainless steel 250 microns , length 160mm
THF250	250mm filter stainless steel 250 microns , length 270mm

To be installed by suitably trained and qualified personnel. Any legal regulations or regulations issued by authorities must be observed during installation.
