

10903758 Free Fall Fire Valve Position Switch & Bracket

Free Fall Fire Valve Mounting Bracket and Position Switch Horizontal. The Free Fall Fire Valve Mounting Bracket for Horizontal mounting applications simplifies installation of the Free Fall fire valve. It reduces installation time and costly bespoke designs that can encounter inherent problems. The bracket can be fitted to screwed valves from 1/2" to 1 1/2" in size, it is constructed from mild steel and is painted black in colour and is height adjustable. A volt free position switch mounted to separate bracket can be incorporated capable of up to 10A switching.

Technical Specification – Switch and bracket

Part number: 10903758-SB

Pole and Throw Configuration	DPST
Normal State Configuration	1NO/1NC
IP Rating	IP65
Maximum Current	10A
Housing Material	Plastic Casing
Maximum AC Voltage	400V
Maximum DC Voltage	250V
Connection Type	M20 x 1.5
Minimum Operating Temperature	-40°C
Standards Met	UL CSA IMQ IEC 957-5-1 EN 60 947-5-1
Maximum Operating Temperature	+70°C

Technical Specification - Bracket

Material:	Powder Coated mild steel
Colour:	Black
Fixing Centres:	130mm
Mounting Holes:	17mm
Fixing (Concrete Subbase):	Anchor Bolt (Not Supplied)
Fixing (Steel subbase):	Bolt or Weld
Height (Floor to bracket):	500mm to 650mm (Adjustable 30mm increments)
Floor plate thickness:	10mm

Part Number	Description
10903758-1-SB	Horizontal Mounting Bracket, Switch and Brackets for 1/2" FFFV
10903758-2-SB	Horizontal Mounting Bracket, Switch and Brackets for 3/4" FFFV
10903758-3-SB	Horizontal Mounting Bracket, Switch and Brackets for 1" FFFV
10903758-4-SB	Horizontal Mounting Bracket, Switch and Brackets for 1 1/2" FFFV

Valve and pipework not supplied Purchase
